Did you learn what you expected?

Grym kurs. Riktigt tråkigt nu när den är slut men jag tycker jag lärde mig det jag skulle.
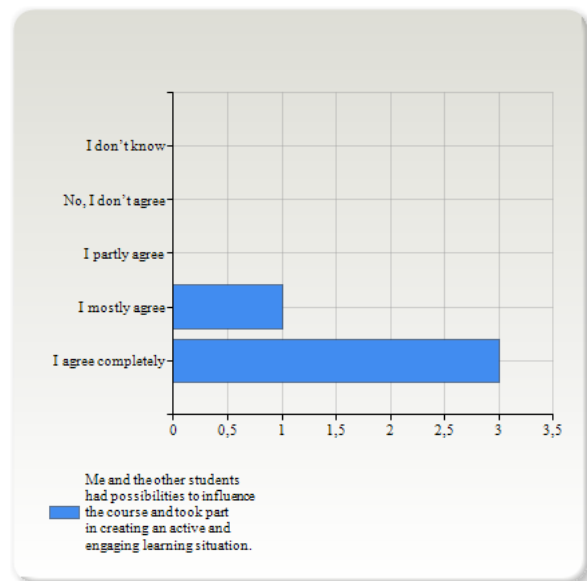

Learning situation:

The teacher/tutor(s) took part in creating an active and engaging learning situation.

Give feedback and also suggestions for improvements.

Yes. Sa det som förslag i slutet av förra kursen men det är många buzz words och glosor i allmänhet inom webbutveckling och det skulle vara grymt med en tillhörande quiz till varje föreläsning som man kan memorera ord och koncept via. Som det som används vid peer instructions fast man kan öva själv istället.

## How do you value the different course elements?

Kurslitteraturen och innehållet var bra men jag vet inte om det finns någon allmän bok om webbutveckling och HTTP som täcker mer koncepten än den kurslitteraturen som var till kursen som man skulle kunna inkludera i framtiden. Alltså, express gömmer extremt mycket av det som pågår under huven så det är stundtals extremt svårt att förstå vad som händer och hur, ett exempel var sessioner som varken kursföreläsningarna eller kurslitteraturen förklarade särskilt detaljerat och inte heller dokumentationen till express heller. Jag var tvungen att sitta och läsa själva källkoden för att förstå ordentligt och det är väldigt tidsödslande, känns som något som hade kunnat förklarats tydligare i de tillhörande resurserna till kursen.

Is there something else you would like to describe? Did you have any extra positive experiences from the course? In what way can the course be improved? Tell freely! What do you think?

Riktigt grym kurs, har haft sjukt kul när jag gjort dessa inlämningsuppgifter. Synd att när man nu börjat vänja sig vid satans favoritprogrammeringsspråk (javascript) att man ska börja med andra grejer men det är den eviga cykeln på universitetet, direkt när man börjar kunna något börjar man från 0 på något annat istället.
