I had preferred live lectures as it makes it easier to be active and ask questions.

How do you value the different course elements?

The lectures have been very good and relevant to the course and it was nice to have pre-recorded lectures so you could watch them when you had time.

Is there something else you would like to describe? Did you have any extra positive experiences from the course? In what way can the course be improved? Tell freely! What do you think?

Overall a very good course, sadly the course period was very short, 9 (8?) weeks long. This caused a lot of stress for each examination hand-in and it was hard to follow along.

The vlogs was very helpful, keep up the good work!

The teachers in this course are gold!

Show personal interest in students development and make it fun and easy to learn.

And very up to date! Always learning the best ways in a constantly evolving language.

Very Good!

The course was really good and fun at the same time. I can't really think of any negative experiences during this course. Tough but fun!
